Summary: LATE FILED. On July 2, 2004, Robert Finkelstein of The Utility Reform Network, met with David Gamson, advisor to Cmmr. Brown, in San Francisco. Finkelstein stated that on depreciation issues, one further reason to prefer the Proposed Decision of ALJ Wetzell and the Alternate of Cmmr. Wood over the Alternate Decision of Cmmr. Kennedy was avoiding unnecessary upward pressure on rates at the present time. Finkelstein explained that waiting until the next general rate case to adjust depreciation rates would likely have any increase coincide with other events that may cause rates to decline.

Summary: LATE FILED. On July 2, 2004, Robert Finkelstein, Executive Director of The Utility Reform Network (TURN), met with Cmmr. Brown and Lester Wong, advisor to Pres. Peevey, in two separate meetings in San Francisco. At the meeting with Cmmr. Brown also present were Robert Wullenjohn and Peter Hanson, advisors to Cmmr. Brown, and Lee-Whei Tan and James Simmons of the

Office of Ratepayer Advocates. William Nusbaum, Senior Telecommunications Attorney for TURN, attended the meetings. Finkelstein and Nusbaum expressed TURN's support for the proposed decision (PD) of ALJ Thomas on Phase 2B Audit Issues. TURN also noted that the changed language in the most recent revisions to the Alternate Decision could arguably be construed as dooming any future audit – if materiality is defined as whether or not revenue sharing was impacted and the next audit covered a period in which revenue sharing had been suspended, the phone utilities would certainly be even more resistant to the audit. Finkelstein and Nusbaum urged the adoption of the PD because of its more appropriate tone and language on these points and also because of its more appropriate treatment of regulatory asset issues.

Zafar stated that SoCalGas Gas Acquisition entered the winter season (November 2000-March 2001) with 85% of its physical inventory filled while the rest of the US averaged 83% and provided customers with cost savings while not compromising reliability of service.

Summary: On July 9, 2004, Eric Eisenman, Chief, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with Trina Horner, advisor to Cmmr. Lynch, in San Francisco. Eisenman urged the Commission to grant PG&E's petition for modification of D03-12-061. Eisenman explained that the 95% load factor adjustment for Line 401 is a major departure from the Gas Accord, and results in PG&E not recovering its gas transmission revenue requirement unless throughput is 95% of the system's total capacity. Eisenman added that in the unlikely event throughput reaches the 95% level, gas prices could increase significantly due to the lack of slack capacity.

Hogue stated that the proposed decision (PD) incorrectly finds that SBC should have deferred Local Competition Implementation and Local Number Portability costs during the audit period as regulatory assets under SFAS 71. Hogue also noted that the PD incorrectly adopts a zero standard for 'materiality'. Finally, Hogue explained that the PD wrongly orders SBC to file an application for the approval of the 1998 transfer of SBC's one share of PB Directory stock to Pacific Telesis.
